For Immediate Release

KOREM JOINS ESRI's BUSINESS PARTNER PROGRAM

Quebec City, QC - May 6th, 2009 – KOREM, a leader in the development and integration of Web-mapping solutions and geographic information systems, announced today that it has joined the ESRI Business Partner Program. Through this strategic partnership, KOREM will leverage ESRI's GIS technology to enhance their offering of custom enterprise solutions for users of industry-specific applications in government, communications, banking, insurance and retail.

"KOREM is delighted to become a part of the ESRI Business Partner Program," said Sébastien Vachon, Founding President of KOREM. "This partnership represents a key milestone and complements our growth strategy that aims to provide a comprehensive line of services and strategic consulting."

As a solution partner, KOREM will not directly sell ESRI software products, but will build and deliver services and solutions using ESRI GIS software technology.

"Korem offers broad experience developing geospatial applications, especially in business intelligence," said Alex Miller, President, ESRI Canada. "We welcome them as a valuable partner and resource to help support our growing GIS community."

About KOREM

Founded in 1993, KOREM develops and implements integrated, evolving and high quality geospatial solutions that meet customers strategic and management requirements on a national and international scale. KOREM's workforce capacities, expertise and creativity have contributed to put together solutions to better locate, describe, disseminate, understand and analyze the information improving decision-making throughout organizations. The mastering of these fields of knowledge combined with business intelligence and geospatial allows KOREM to accommodate clients with diverse needs. ISO 9001:2000 certified, KOREM assures its clientele of high-level standards of services and top-quality satisfaction, based on dynamic and reliable work parameters.
